Dear Friends,

Indian Ice-cream Manufacturers' Association (IICMA) in association with “Beverages & Food Processing Times” is doing a seminar on Ice-cream industry on 15<sup>th</sup> March 2012 at New Delhi.

As you know Ice-cream segment is one of the fastest growing segment in the India food processing industry. All the leading players of Ice-cream segment came together and formed an association to match their wave-lengths, Ice Cream Manufacturers' Association (IICMA). All the leading brands of Indian Ice-cream industry are the members of it.

❖ **Some Facts:**

1. The ice-cream and frozen dessert market in India is estimated at approximately \$450 million in 2009-10. Growing at approximately 12-15 per cent, it is expected to cross \$900 million by 2014-15. The branded market is estimated at approximately \$200 million and is growing at 20-25 per cent.
2. North and west are the highest consumption centers accounting for close to 70 per cent of the market.
3. Increasing incomes, a burgeoning middle class, buoyant economy and widening of outlook contributes in making ice-cream more affordable and acceptable among Indian masses.

❖ **The key trends are:**

| b) Availability of multiple options to consumers — from ice-creams to traditional kulfis to new forms such as gelatos and flavoured yoghurts. | e) Reducing impact of seasonality on consumption.   |
| c) Growing trend of going out to eat ice-cream.   | f) Many players ready to increase presence with aggressive expansion plans.   |
